

*City of Saint Paul Sewer Utility Assessment Program
for Repair of Sanitary Sewer Connections*

Application for Assessment

As owner of the property listed below, I have reviewed the Assessment Program instructions and agree to the following terms and conditions:

Administration Fee: I will be charged a one-time fee of \$60.00 for administration, which will be included in the cost assessed against my property.

Payback period: Sewer repair costs, administrative fees, and interest will be collected through my real estate taxes over a twenty year period. Interest charges will be based on the fixed rate approved by the Saint Paul City Council and is subject to change without notice. The current rate is 6.70%. I may pay the unpaid balance in full at any time during this twenty year period, without penalty.

Waiver of Appeal: I AGREE TO WAIVE MY RIGHT TO APPEAL THIS ASSESSMENT. I AGREE TO PAY THE CONTRACTOR PROMPTLY UPON RECEIPT OF THE JOINT CHECK ISSUED BY THE CITY. THE CITY IS NOT RESPONSIBLE FOR ANY CHARGES THE CONTRACTOR MAY LEVY FOR FAILURE TO PAY PROMPTLY.

Damage Awards: If the repair to my sewer service is necessitated by damage resulting from the actions of another party, and I collect compensation from that party, I agree to apply the full amount collected towards the unpaid balance of the assessment.

*City of Saint Paul Sewer Utility Assessment Program
for Repair of Private Sanitary Sewer Connections*

Program Information and Instructions

Who is eligible?

- Any property owner who has a defective sanitary sewer connection, **provided that the property owner owes no delinquent taxes on any property in Saint Paul.** Please note that participation in this assessment program is voluntary. Property owners have the option to arrange for private financing.

What are eligible costs?

- Only those costs (parts, labor, restoration, etc.) deemed necessary for the repair of a defective sanitary sewer service.

When is payment due?

- The charges will be paid over a twenty year period, starting the year after the City Council approves the assessment.
- The fixed interest rate is set for the year your assessment is ratified by the City Council and is subject to change without notice. The current rate is 6.70%. An administrative fee of \$60 is added to the total cost.
- Payment in full can be made any time prior to end of period, without penalty.
- See back side for an example of how the Assessment Program works.

What forms need to be filled out?

- Before any work is done: an Application Form with at least **three** estimates. This also is a waiver of right to appeal assessment and needs to be signed by the property owner.
- After the work is completed: a Completion Form signed by the property owner with attached final invoice and a Mechanic's Lien Waiver for the work done, signed by the Contractor.

When does the contractor get paid?

- Upon completion of the work and the receipt and approval of all required forms, the Finance Department will process a check made payable to both the property owner and the contractor. The check will then be mailed to the property owner who then signs it over to the contractor. Several weeks should be allowed for this process.

Instructions for property owners:

- Complete the Application for Assessment, and return it to the Sewer Utility with at least **three** written estimates from Licensed House Sewer Contractors who can perform the work. A list of these authorized contractors was included with the application and these instructions.
- Allow several days for the Sewer Utility to verify eligibility of the property owner and review estimates to determine eligible costs.
- The Sewer Utility will notify property owners of approval or denial of their application. If approved, the property owner is directed to proceed with the work.
- The Sewer Utility also notifies the City Real Estate Division of approval. The Real Estate Division then places a "Pending Assessment Notice" on the tax record of that property.
- The property owner then commences work, and upon completion submits to the Sewer Utility a signed Completion Form that includes a final invoice of costs and is accompanied by a completed Mechanic's Lien Waiver from the contractor.
- The Sewer Utility enters the information into the City's finance system. The Finance Department will prepare a check payable to both the property owner and contractor in the amount of the total assessed charges. The check will be mailed to the property owner first. The property owner must endorse the check and immediately mail the check to the contractor. Please note that preparation and delivery of this check could take several weeks.
- The Sewer Utility will then submit that amount to the Real Estate Division to be processed as a special assessment. Please be advised that assessments are prepared for ratification by the City Council. Ratified assessments are then certified to the County, with charges appearing on the property tax statements the following year.

The plumbing and house drain contractors on this list have agreed to perform their video sewer inspections according to the Saint Paul Televising Specifications. All are area code 651 unless specified.

All Ways Drains	458-5052
Centerpoint Energy	612-333-6466
D. C. Annis	209-0275
Drain King	763-786-3000
Grant Utilities	793-5251
Professional Drain Service	436-1442
Roto Rooter	638-9990

Typical cost of the procedure is \$175 to \$275. **Please call several contractors for price quotes as they may vary.** If needed, there may be additional costs for sewer cleaning prior to the inspection. If your sewer service is in need of repair, be sure to request a copy of the video tape/DVD for your use. It can then be shown to house drain contractors for a more accurate bid on your repair.

Please Note: We do not make any referrals. You may find additional contractors who provide this service in the yellow pages listed under Plumbing Contractors, Plumbing Drains & Sewer Cleaning, Sewer Contractors & Cleaners, and Sewer Inspections.

St. Paul Televising Specifications: The video tape/DVD should be in color, have audio stating your address, show digital foot measurements, have adequate lighting, and be slowly paced. Suggested speed would be one foot per second or slower. This will enable the house drain contractor to see problem areas better.

If you have questions regarding your sewer service or need sewer records, please call the Service Desk at 651-266-6234.
